Pilora

Bring your list to your next visit.

Everything you take on one page: your medications, your supplements and the amounts printed on each label.

1. **Get the free Pilora app**
   Scan the code with your phone camera. iPhone and Android.

2. **Scan both sides of each bottle**
   The app reads the label: the ingredients and the amount of each.

3. **Tap "List for your doctor"**
   Print the page or show it on your phone at your visit.

pilora.app/download

The app and the list are free for up to 5 items; a longer list needs a paid plan. The list contains only what you add. Pilora is not a medical device and does not give medical advice. It never tells you to start, stop or change a medicine: that is for you and your doctor or pharmacist.
